The LHS Yearbook Team & the class of 2019 dedicates this yearbook to...

MRS. HEINZ

Library Media Specialist & Yearbook Club Adviser

Mrs. Heinz began working at LHS in 2015, when the class of 2019 were freshmen. She has watched us grow from brand new high-schoolers to seniors about to embark on new journeys into the world beyond Littleton. In 2017, Mrs. Heinz took over the job of adviser of the Yearbook Club, and led the way to two beautiful new and improved yearbooks.

We would like to thank Mrs. Heinz for always going above and beyond to connect with each student and keep the library a happy and safe place at LHS. It has been a great four years!

Kelly Davis ('19)

Kelly Davis began doing archery in third grade when her mother placed her in an archery camp. In the beginning, she did not like it: "I was horrible at it," she remembers. In the intervening years, she has improved. She started competing when she was in tenth grade, and is now in her third competitive season. Davis has competed across the country in numerous states and regions including New York, Pennsylvania, Ohio, North Carolina, Arizona, Texas, South Dakota, Florida, Michigan, and New England. The competition in Michigan was the World Qualifying Tournament; Davis didn't make the team but came in 24th place. This means that she is the 24th best player in the world in the Cadette Compound Division. In addition, Davis is 9th in the country for the Junior Compound Division. Davis shoots with a compound bow, which looks somewhat similar to a hunting bow. She practices seven days a week, for an hour or two a day at a range in Hudson, and sometimes in her basement. Davis explained that at National Tournaments, there are team events where players are randomly assigned to play with other players in their division. She also belongs to a competitive team--the Bear Creek Extremes in Colorado. In the fall Davis will be attending Syracuse University, and hopes to found an archery club at the college. Davis started the archery club at the Littleton High School for her Girl Scout Gold Award Project in 2015. She raised money through grants and fundraising to purchase ten compound bow hybrid kits and ten targets. She also worked with Mrs. Buonacore, the middle school Health teacher, to bring the club to the Littleton Middle School. Davis works with young children and students in the High School and Middle School teams to help improve their archery skills. She is certified through USA Archery as a Level 1 Instructor: this means she is able to run school clubs. She also coaches through NASP--National Archery in the Schools Program. USAS helped Davis get the equipment and grants for the clubs. In December 2018, Davis discovered a passion for archery photography. She wanted to participate and help more with National Tournaments, and so far she has photographed two regional tournaments. At one of the regional tournaments, she had the opportunity to work with a media company and use their professional equipment. Davis aspires to work in media broadcasting. Davis says that her favorite part of doing archery is the friends that she's made, "I have friends across the country." She also has made many connections by participating in tournaments and working with the media company. She loves the inclusiveness of the sport and coaching archery beginners.

Anna Pettersson ('20)

Anna Pettersson, a junior at Littleton High School, began figure skating at seven years old, when her mom decided to put her in a Learn-to-Skate program. She loved the sport and continued taking lessons. When she moved to Littleton from her previous home in Connecticut, she was thinking about quitting but her mom encouraged her to try out synchronized skating. This is a sport where sixteen figure skaters perform a skating routine in unison. She spent the next four years doing synchronized skating on a team and perfecting her skills in freestyle lessons. When Anna was eleven, her coaches introduced her to ice dance. Ice dance is a discipline of figure skating which has roots in ballroom dancing.

Right now, Anna practices for about 14 ½ hours weekly, on top of going to school 6 hours a day since she switched back to public school this fall. Anna's ambition to continue improving is astounding, she says "If synchronized skating does get into the Olympics, I would definitely try to work towards [competing]." While Anna does not want skating to be her career, she told me that she would love to coach on the side, or even judge skating competitions some day. Anna enjoys the social aspect of being on a team with 20 other girls, and has gotten close with them after spending so much time together. When asked what her favorite part of her experience with ice-skating has been, Anna said, "I think it's really cool that you put in so much time and dedication, and you really get to see the results that you want. There's definitely going to be times when--you know--things don't go your way and you see results that you didn't really expect, but then I always like to go back and really improve these, and try to succeed in the end."

Sarah Gordon ('19)

Sarah Gordon, a high school senior at Littleton High School, pursues her love for writing and poetry outside the English classroom in Slam Poetry festivals located in Boston. Ever since she was eight years old, Sarah loved to write poetry in the form of simple verses. She was introduced to these competitions when a friend of hers competed in a competition called "Louder Than a Bomb," or LTAB for short. She was instantly inspired by her friend and started attending poetry classes at Grub Street. The extensive youth program offers young writers the opportunity to improve their style and eventually compete on their own.

Slam Poetry is a form of art that combines traditional rhythm and elements of poetry with aspects of music and rap. It came from African American communities in the 1980s from Chicago. Jazz clubs would often host competitions to encourage lyrical writing. These competitions were called "slams" where a poet is judged on their writing and their performance individually or in teams.

After the Parkland shooting in 2018, the students at Littleton High School organized a walkout that took place in the auditorium. Many seniors and juniors at the time spoke their minds as a reaction to the massacre. Sarah wrote a poem as a reaction to the shooting and read it to the school; she was able to perform her work in front of a larger audience. She specifically wrote about her experience as a sixth grader learning about the Sandy Hook school shooting compared with the high school shooting just last year.The overall response was full of positivity and praise by a variety of members of the community.

In Sarah's junior year, she auditioned for the same competition that she was inspired by in ninth grade. She placed in the competition, and trained with three other poets from Grub Street for a few months to prepare for the competition. She decided to use the poem that she read aloud at the walkout because it was so well received. They ended up in the top 16 teams and were in the semifinals.

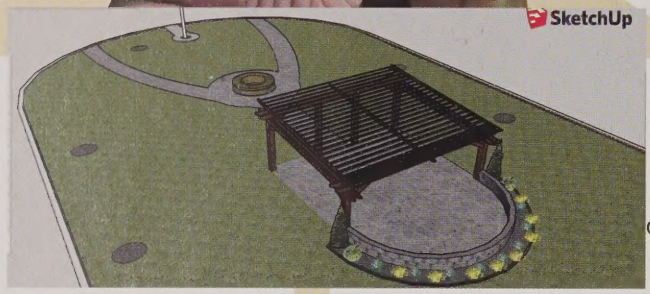
Andrew Reilly ('19)



Andrew Reilly, a Littleton High School senior, had the opportunity to create pergola design for the high school as the 2019 Class Gift. Andrew was one of th first proactive students that came forward and proposed an idea. He was the selected to represent the class and leave behind a memorial piece t commemorate all of the achievements of the Class of 2019. The shade structure will be in the middle of the grass car loop area in the upper level of th high school. Andrew wants to pursue Landscape Architecture in the future, s this was a fitting project to explore the field further in the comfort of hi hometown. Andrew first became interested in becoming a Landscape Architec when he attended his sister's graduation at Northeastern University. There, h heard of the term and quickly researched more about the field. After searchin for many options, Andrew concluded that this was the field meant for him. Th Landscape Architecture career path consists of many different aspects However, the architects essentially try to bring the natural world into everyda life. By creating spaces that include elements of nature, designers incorporate level of comfort in the community. Architects also could be tasked wit maintaining the nation's coasts, forests, and overall environment. Allowin people to live without disrupting nature is a conservation dream for many Whether it's redesigning an entire park, or creating a pergola for a small schoo landscape architects expertly combine components of structures and th environment. When Andrew first shared his concept of the pergola project, seemed almost like an elusive dream. The distant plan seemed more and mor viable when he completed his junior year. The attainable proposal was ther accepted and Andrew began to prepare himself for any challenges that woul come. The economic, structural, and time tests would help him learn the tru difficulties of the profession along with how to problem solve and make decision for the class. The class gift consists of a shaded structure covering a ston platform backed by a half wall. Two paths run along a circular, wooden bench and then split off to face the handicap parking area across the road. In th pictures below, Andrew has created digital SketchUp versions of what th pergola will look like. Students will be able to enjoy the area starting th 2019-2020 school year. Andrew will be pursuing Landscape Architecture at th University of Massachusetts Amherst this fall. While his talent has beer employed at the high school, his full potential will be displayed when he categorically studies the art of Landscape Architecture

Congratulations LHS Class of 2019
and especially our Ryan!
We are thrilled to celebrate you!
It has brought us so much joy cheering you
on from the sidelines and watching you
grow into the person you are today.
We can't wait to see what the future brings.
Love, Grammy and Grampy

Promise me you'll always remember: You're
braver than you believe, and stronger than
you seem, and smarter than you think.

Congratulations, Ant!

You're off to great places! Today is your day! Your mountain is waiting, so get on your way! - Dr. Seuss

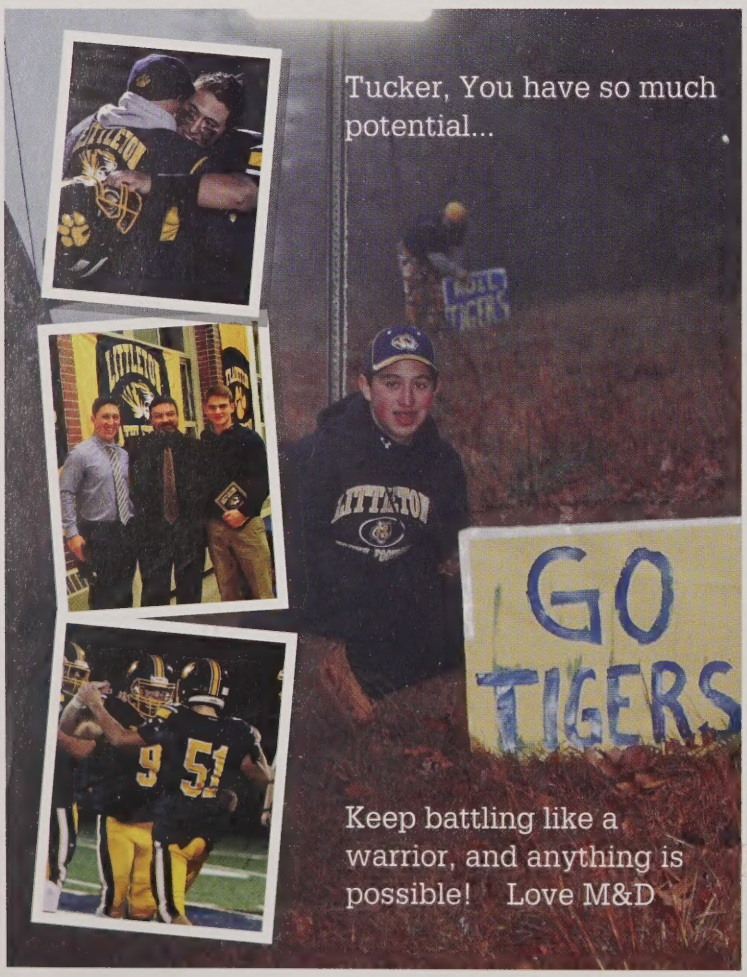
Good luck, Anthony! We wish you the best in life!

With love, Mom, Dad, Grandpa, Nancy, Michelle, Ms. Maria, Mr. John, Kelly, and Brock

Thank you to Mr. Christy and Mrs. Nolan for making our four years here as smooth as possible! None of us would have made it without you. You're a B19 Deal to us!

~The LHS Class of 2019

Justin, Gaiman said, "Now go, and make interesting mistakes, make amazing mistakes, make glorious and fantastic mistakes. Break rules. Leave the world more interesting for your being here." Make those mistakes always knowing we support and love you and are so proud of you.
Love, Mom, Dad, Jacob, Grossi, Nonna, Nonno, Aunt Maria, Uncle Stephen, Sophia & Joseph



Elliott

You will come of age with our young nation
We'll bleed and fight for you, we'll make it right for you
If we lay a strong enough foundation
We'll pass it on to you, we'll give the world to you
And you'll blow us all away...
Someday, someday
Yeah, you'll blow us all away
Someday, someday

Congratulations Sarah!

We are so proud of you for stick(er)ing the landing!
Love, Mom, Dad, Noah, and Mocha

Congratulations Erin!!!

You are an exceptional young lady that keeps true to who you are. Your kind heart and thoughtfulness for others will take you far. We are so proud of who you have become.
Love always, Dad, Mom, and Brian

Kaitlyn and Sarah

So incredibly proud of you!
Keep smiling as you run through life.

Congratulations Haley!

We're so proud of you and your accomplishments. You have challenged yourself to succeed and achieved those goals with perseverance and poise. You have grown into a kind and compassionate young woman. We know you will do great things in the future.

Love you, Mom, Dad, Shawn, Brendan and Emmett

Katherine Hueston

Your beauty, passion, self-confidence, and strength have always inspired us.

We are so proud of how each of these traits has shaped your decisions and your life. What a joy it has been for us to watch and marvel at your grace as a ballerina, your intelligence and commitment as a student, and your dedication and work on behalf of just causes and worthy politicians. Wow. . . . so far.

We can't wait to watch and cheer you on as you continue in pursuit of your dreams. Congratulations sweetie. Te Amo! Dad, Mom and James XOXO

To our beautiful Kenna,
You've always been our special princess. May you bring the same joy to others that you have brought to us as you follow your heart and pursue your dreams. We love you so much!
Jeremiah 29:11

Congrats Ethan and Class of 2019!

We are so proud of the kind, smart and witty adult you have become! We are going to miss you next year but you are going to have a blast! As you take this next step, don't forget who you are and where you came from.

Love you so much, Mom, Dad, Alyssa and Lauren

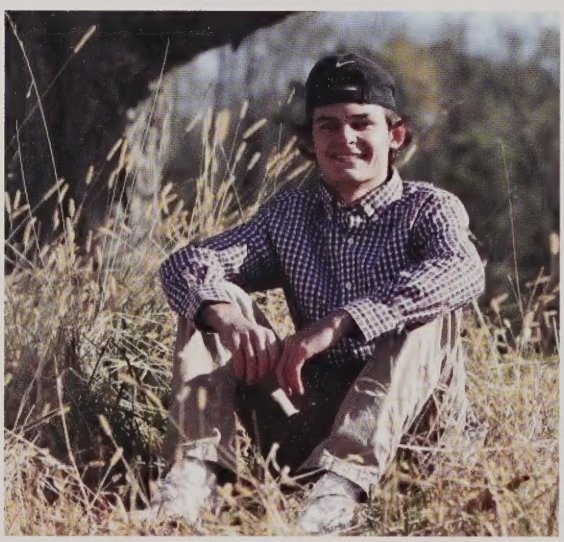
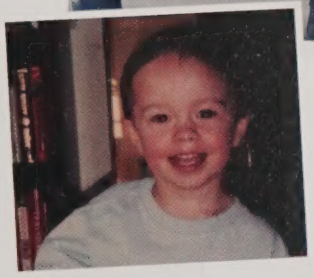
Congratulations Mikey

Class of 2019



We are so proud of you. You have completed the first part of your journey in life.
Good luck next year!
Be happy, have fun and most of all enjoy every moment.
Love, Mom, Dad and Valerie.



Congratulations Wesley! So very proud of you! Continue to live each day to the fullest! Love you, Mom

Congratulations Luke!

Love Mom, Dad, Ruth & David

Be bold,
be courageous,
be your best.

Sophia,
18 short years ago the most precious gift was given to us, that was you. You've grown into a remarkably lovely, brilliant, funny, caring and sweet young woman. We could not be prouder of the person you are, but also know the best of you has yet to come. There is a whole universe waiting for you outside of LHS, and you are more than ready to grab hold and run. We will watch you in awe and support you as you take those next steps to your exciting future.

We love you to the moon and back!
Mom & Dad

Congratulations, Morgan!

"Life is too short to wake up in the morning with regrets. So, love the people who treat you right, forgive the ones who don't and believe that everything happens for a reason. If you get a chance, take it. If it changes your life, let it. Nobody said it'd be easy, they just promised it would be worth it. - Dr Seuss

We Love You, Mom, Dad, Ryan, Tyler, Nani Paula, Papa, Sitka and Chena

PJ

We are so proud of you. Thanks for making us laugh every day!

Love, Mom, Dad, Emily & Lindsey

Congratulations Lena!

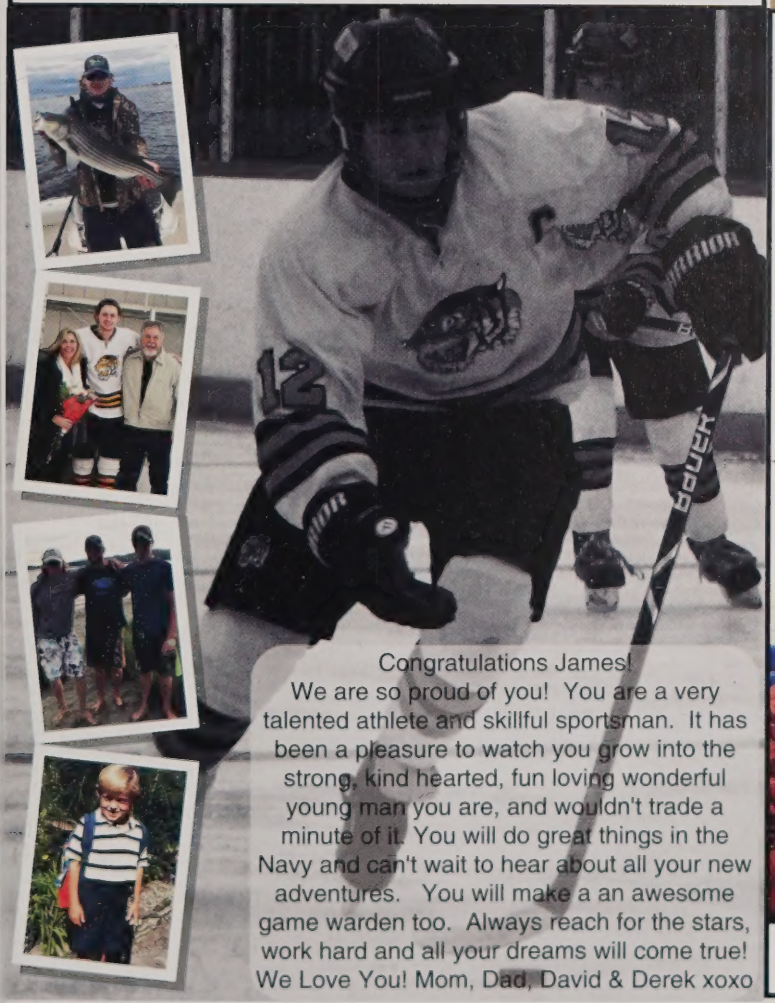
From the moment you were born you have filled our lives with tremendous love and laughter!

No matter the challenge in life, you have faced it head on with courage and perseverance.

-You have grit kid and that will take you places!

" What is grit? Grit is refusing to give up. It's persistence. It's making your own luck." - Peter Diamandis

We love you so much!
Mom, Dad, and Lexi



Congratulations James!
We are so proud of you! You are a very talented athlete and skillful sportsman. It has been a pleasure to watch you grow into the strong, kind hearted, fun loving wonderful young man you are, and wouldn't trade a minute of it. You will do great things in the Navy and can't wait to hear about all your new adventures. You will make a an awesome game warden too. Always reach for the stars, work hard and all your dreams will come true! We Love You! Mom, Dad, David & Derek xoxo

Congratulations Julia! Dream Big and Work Hard!

We are so proud of you and can't wait to see what is next! We love you very much!

Kelly Davis

To the LHS faculty and administration,
Thank you for dealing with us! We may have been a handful and a "B19 Deal", but you shaped us into the adults we are today. Thank you for helping us through the worst and the best of times. It was a great four years! Go Tigers!

To my fellow classmates,
We finally made it! It was a blast creating your final high school yearbook and including all of your senior year memories. Wherever you all end up, whether it be the workforce or university, I wish you minimal stress and happy times.

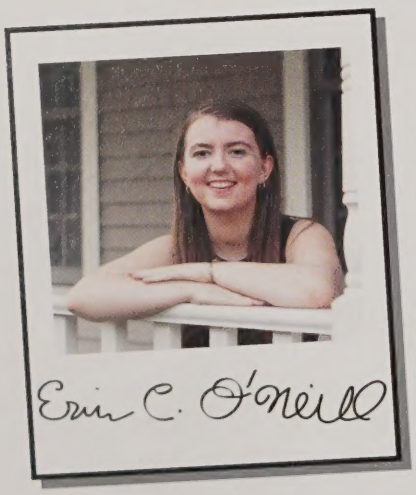
Sarah Gordon

To the class of 2019 and the rest of Littleton High School,

Truthfully, many of us don't really pay attention to yearbooks. We're a small school, so it doesn't seem necessary for remembering names. We carry cameras in our pockets, so pictures of us with our friends, in our clubs, on our teams, don't seem particularly exciting.
But there is something to be valued in a yearbook. If you know me, you know I don't subscribe to the "best years of your life" philosophy (like, at all) but even stressful, frustrating, frightening, or exhausting experiences are worth remembering, just as much as the memories that bring us joy and laughter. I hope someday, you might look back at this book and remember some of the classmates you've fallen out of touch with, some of the classes and teachers who helped shape you into who you are. I hope you remember some things with fondness and others with relief that your reality has changed. I hope next year is the start of a beautiful future for you, and I hope you get something valuable out of looking back at this school year, whatever it may be.
I have put an unexplainable amount of work and time into this yearbook and last year's. Working on yearbook has taught me so much about design, leadership, patience, and cooperation. I am lucky to have gotten the opportunity to be the editor of your yearbook.
I wish all of you the very best moving forward, and always remember that you are a B19 DEAL!

Sarah Gordon



Erin C. O'Neill

To the Class of 2019 and Beyond

In all honesty, I did not put as much time, effort, or talent into designing the pages of this year book as Kelly did over the past year and my work over the last two years is nowhere near that of Sarah's, but I have been working a lot behind the scenes the past two years- working with administration to help go through senior quotes, counting votes for superlatives, and so forth. In a way, my involvement with the yearbook represents the class' involvement as a whole. Although Sarah and Kelly might have designed the pages and placed many of the pictures, *you* created the moments and the memories behind each and every picture in this yearbook. *You* sent in pictures and quotes and decided on superlatives. This yearbook would not be possible without *you.*
Although Sarah, Kelly, and I might look back at this yearbook and see a year of planning, design and hard work, I hope you look back on this yearbook and see the accumulation of 13 years in school and of 18 or so years in life. We have all grown so much since our years at Shake Lane and various other elementary schools. I hope this yearbook helps you look back on fond memories of both high school and before and to see how much all of us have grown together. I also hope that you can use these memories to look forward and see how much potential each of us has to grow even more.
Please share these memories with your parents, your friends-both new and old- your future spouses, your future nieces and nephews, your future children, your future grandchildren, or whomever this world brings into your life. Use this yearbook to show anyone that may doubt you in the future that you were cool and a B19 DEAL in high school.

Rise from the Ashes

Sorting through the ruins of his former home, Lou Donnelly, left, and his brother-in-law, Donald Weeks, find little remains after the Camp Fire blazed through Paradise, California, in November. The fire, which was California's largest, deadliest and more destructive than the previous seven most destructive fires combined, cost at least 85 people their lives and displaced more than 250,000. Many remained missing as rescue crews continued their search. The Camp Fire burned concurrently with the Woolsey and Hill Fires in Southern California.

Rain, Rain, Go Away

Hurricane season brings two particularly destructive hurricanes to the eastern coast. Hurricane Florence made landfall in North Carolina in September, bringing record-shattering rain and flooding, while October's Hurricane Michael, characterized by heavy winds, was the strongest storm to ever hit the panhandle of Florida. The storms killed more than 90 people and caused billions of dollars in damage.

Stalemate

As the government shutdown stretched on to become the longest in U.S. history, "We're Closed" signs became increasingly common, as seen at the National Zoo and other popular attractions. Over 800,000 federal workers were affected, not including government contractors, when an agreement on funding could not be reached. Those categorized as essential personnel worked without pay while those categorized as non-essential were furloughed starting in December.

All Smithsonian museums and the National Zoo are closed today due to the government shutdown.

Count Me In

The 2018 midterms see the highest turnout in over a century, fueled by a polarized political climate and heightened voter enthusiasm. Democrats easily regained control of the House but failed to win back the Senate, with Republicans gaining two seats to strengthen their hold. A record number of women and people of color won seats, making this the most diverse Congress ever. Nancy Pelosi, the first female speaker of the House, made history by becoming the first person in over 60 years to be reelected after leaving the position.

Royal Delivery

American actress/activist-turned British Royal Meghan Markle, Duchess of Sussex, sports her baby bump. Just five months after her wedding to Prince Harry, Duke of Sussex, in May 2018, Kensington Palace announced the couple was expecting their first child, due in the spring of 2019, with all members of the royal family reportedly delighted by the happy news. Regardless of gender, the baby will be seventh in line to the throne.

Finding Your Balance

A baby goat brings smiles and practices its own balance while perched on an enthusiast's back. With millions of Americans trying yoga each year and more than two million goats in the United States, it was only a matter of time before someone put them together. Though its origins are somewhat murky, the goat yoga trend spread quickly, offering a good time to human and caprine practitioners.

Fighting for Our Future

Levi Draheim, 11, speaks at a climate change rally in Eugene, Oregon. Draheim was one of 21 young plaintiffs suing the United States government for failing to protect the Earth from the effects of climate change. In Juliana v. United States, petitioners claimed the promotion of fossil fuels threatens the survival of future generations.

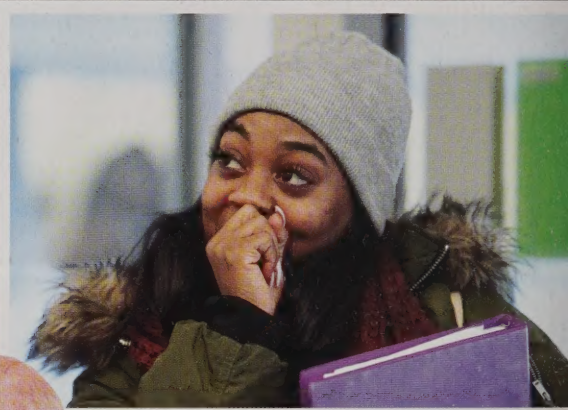
The End of an Era

As the American public pays their final respects to former president George H.W. Bush, the 41st president of the United States, he is also mourned by his service dog, Sully. Bush died Nov. 30, 2018. The year was marked by two major political losses. Senator John McCain died Aug. 25, 2018, from brain cancer. Both Bush and McCain made significant marks during their time in office and were widely mourned by both Democrats and Republicans.

A New Justice

Filling the second vacancy of his presidency, President Donald Trump watches as Judge Brett Kavanaugh is symbolically sworn in by retired Supreme Court Justice Anthony Kennedy with Kavanaugh's wife, Ashley, and daughters, Liza and Margaret, by his side. The ceremony took place shortly after Kavanaugh was confirmed by a Senate majority vote, becoming the 114th justice in the nation's history.



#Blessed

Overcome with emotion, Howard University senior Mya Thompson reacts to Alfred Street Baptist Church's surprise announcement they are paying her tuition and fees balance. The church, one of the nation's oldest African American congregations, donated $100,000 to Howard University, distributed to 34 graduating seniors. They raised the money during a church-wide prayer and fasting campaign where members gave offerings for a community cause, including $50,000 for Bennett College.*

A Narrow Rescue

Twelve boys and their coach are in good health after their rescue from a flooded cave in Thailand. The soccer team was trapped for more than two weeks after heavy rains blocked their way out. Thai Navy Seals swam through narrow passages to reach the boys in what they referred to as one of their most dangerous missions, even leading to one Navy Seal's death.

"Not a Woman in Science"

The 2018 Nobel Prize in Physics was split, with half awarded to Arthur Ashkin, and the other half jointly to Gérard Mourou and Donna Strickland. The work of all three centers on laser physics, but Strickland received extra attention for being only the third woman to receive the prize in its 118-year history. In interviews following the announcement, she made it clear that she sees herself "as a scientist, not a woman in science."

Truth in Journalism

"The Guardians and the War on Truth" rose to the top of TIME Magazine's Person of the Year. They were journalists whom world leaders and governments tried to silence. Four separate covers featured either slain Saudi journalist Jamal Khashoggi; Maria Ressa, founder of the online news site Rappler; the wives of Reuters reporters Kyaw Soe Oo and Wa Lone holding pictures of their husbands who are imprisoned in Myanmar for reporting on the killing of Rohingya Muslims; or the staff of the Capital Gazette in Washington, D.C., where a gunman opened fire. TIME chose them to highlight the importance of journalism in the world and the need for truth and accountability. A few other short-list candidates included separated families, Dr. Christine Blasey-Ford, Black Panther Director Ryan Coogler and March For Our Lives activists.

A Marry Christmas Season

December becomes a month of "I do" for celebrities. Fans learned singer Nick Jonas and actress Priyanka Chopra wed in lavish dual Christian and Hindu ceremonies in India after a four-month engagement. Singer Miley Cyrus and fiancé Liam Hemsworth wed in an intimate home ceremony fans only discovered through their Instagram accounts. Both weddings followed the official confirmation in November that singer Justin Bieber wed model Hailey Baldwin.

The New Playground

The hugely popular game Fortnite: Battle Royale continues to be a hit with children and teens, garnering over 200 million users worldwide. Groups of 100 battled virtually on an island where they fought to be the last player standing while avatars dressed in costumes and pulled out dance moves. The free download allowed users to collect weapons and resources as they played individually or in groups across multiple platforms.

A Pantone Year of Fashion

Supermodel Ashley Graham, recently named Fashion Force of the Year by Daily Front Row during New York Fashion Week for her body positivity activism, shows off some of the year's hottest fashion trends, such as neon colors. Neons and corals were seen everywhere from celebrity fashion to Pantone® Colors of the Year. Other popular trends included distressed denim, crop tops and tube tops, waist bags a.k.a. fanny packs, scrunchies, expensive athletic shoes, vintage-style glasses with semi-translucent frames, bike shorts and cargo pants, with many nods to early 90s fashion.

The popularity of podcasts continues to grow. In 2018, it was estimated that 73 million people listened to podcasts in the United States and this number is expected to increase to an estimated 132 million listeners by 2022. Popular podcasts included *This American Life*, *Serial*, *The Stuff You Should Know* and *Dear Hank & John*, hosted by young adult author John Green and his brother, Hank.

Countdown to a Billion

Worth $900 million, Forbes features Kylie Jenner, 21, on the America's Women Billionaires cover as on track to become the youngest ever self-made billionaire. As a joke that went viral, Instagram celebrity Josh Ostrovsky started a GoFundMe page to help Jenner reach $1 billion.

Famous, Fabulous and Influential

Queen of Soul Aretha Franklin, 76, passes away in August, but her legend endures. Four days of mourning, with a memorial service in her hometown of Detroit, featured celebrity tributes and fabulous fashion inspired by the diva. Franklin saw more than 100 of her singles place in the Billboard charts, received a Grammy Lifetime Achievement Award, was the first woman inducted into the Rock and Roll Hall of Fame and was bestowed a Presidential Medal of Freedom.

Going Gaga

Lady Gaga is all smiles following the success of the film "A Star Is Born." Her performance and music were showered with praise, receiving awards and nominations at the Golden Globes, Oscars, Grammys and Screen Actors Guild awards ceremonies, among others. Gaga co-wrote and performed much of the film's original music, including lead single "Shallow." Her stand-alone music received recognition, with the song "Joanne (Where Do You Think You're Goin'?)" earning Gaga another Grammy.

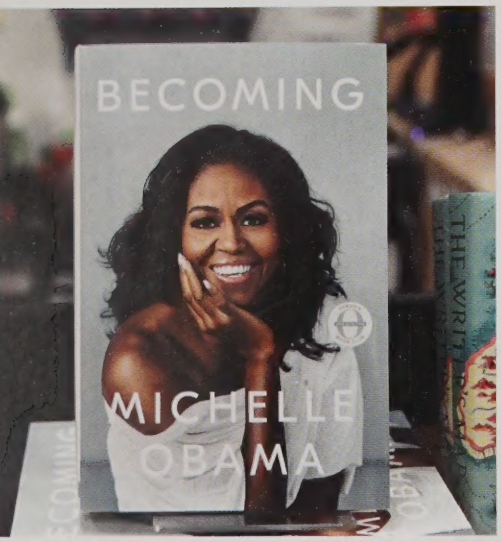
A New Way to Watch

Don't like the ending? Choose another! Netflix is now offering "choose your own adventure" options. They started the interactive options with shows for young watchers, then brought it to older audiences with the "Bandersnatch" episode of the science fiction show "Black Mirror." Viewers were given the opportunity to choose their storyline, making choices about everything from music to the character's reactions.



From First Lady to Bestselling Author

Michelle Obama's memoir, "Becoming," quickly becomes one of the most popular books of the year, selling more than 1.4 million copies in its first week. In its pages, the former First Lady shared stories of her life, from her childhood on the South Side of Chicago to her role as part of the first black presidential family in the White House.

Spice Up Your Life

In November, the Spice Girls officially confirm their widely anticipated reunion. The group, sans Victoria Beckham a.k.a. Posh Spice, announced 19 events thus far in the United Kingdom and Ireland throughout May and June of 2019. Widespread excitement from everyday fans as well as celebrities, such as Adele's Instagram post, accompanied the announcement.

Bingeing on Nostalgia

People show their nostalgia, with "The Office," "Friends," "Parks and Recreation" and "Grey's Anatomy" holding as the most-streamed shows on Netflix. On the airwaves, NBC's "Manifest," ABC's "The Conners," and the CBS procedural "FBI" were among the most popular new shows. "The Big Bang Theory" and spinoff "Young Sheldon" continued to be fan favorites, while "This Is Us," "The Good Doctor" and "The Voice" maintained their history of strong ratings.

Marvel's Marvels

The release of the highly anticipated films "Captain Marvel" and "Avengers: Endgame" is a bit bittersweet following the death of Avengers co-creator Stan Lee. Lee, 95, was credited with revolutionizing the superhero and comic book genre by portraying flawed characters like the Hulk, Doctor Strange, Spider-Man, Thor, Iron Man and the X-Men. He was known for his frequent cameos in Marvel Universe films.

Swipe Left

Instagram faces massive backlash in late December after an update made users swipe left to right to see stories instead of scrolling down. Instagram said a glitch accidentally sent an update that was supposed to only test a small group of users to everyone instead. Users complained that they would delete the app if the previous layout was not restored and Instagram fixed the bug the same day.

What a Handful

Cradling her four Grammys, Kacey Musgraves celebrates a successful night at the Grammys. Musgraves won Album of the Year and Best Country Album for "Golden Hour," Best Country Song for "Space Cowboy" and Best Country Solo Performance for "Butterflies," tying with Childish Gambino for most awards of the evening. She became the first country artist since Taylor Swift to win Album of the Year.

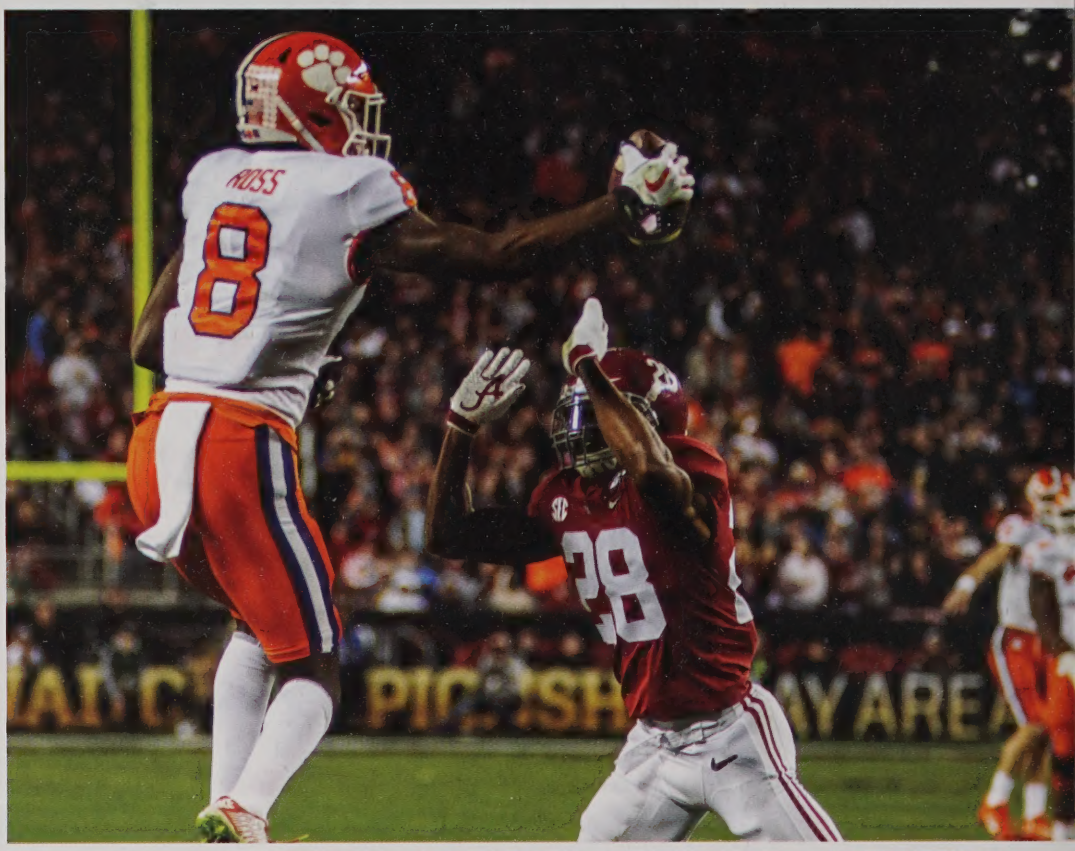
Changing Tide

In their fourth matchup in as many years, Clemson wide receiver Justyn Ross thrills fans with a one-handed catch in the air during the NCAA College Football National Championship in Santa Clara, California. The Clemson Tigers dominated the number one ranked Alabama Crimson Tide 44-16. Freshman quarterback Trevor Lawrence proved a force to be reckoned with, throwing for 347 yards and three scores.



Battle of the Ages

The NFL's two conference title games are notable for their quarterbacks: in both games, established longtime quarterbacks face off against NFL newcomers. The Los Angeles Rams, with 24-year-old quarterback Jared Goff, beat the New Orleans Saints and 40-year-old quarterback Drew Brees to secure the NFC championship. For the AFC championship, experience won out over youth, with the New England Patriots and 41-year-old quarterback Tom Brady beating the Kansas City Chiefs and 23-year-old quarterback Patrick Mahomes, who was named the 2018 NFL MVP. The 16- and 18-year age differences were the largest in any conference title game.

The Expansion Pack

Fans gather to symbolically break ground for a hockey arena after December brought an announcement by the National Hockey League that a 32nd franchise would be added and based in Seattle. Though the team will not play until the 2021-2022 season, fans already speculated what their name would be. Major League Soccer expanded to 27 teams, adding in Austin, Cincinnati, Miami and Nashville, while a number of cities competed for the final 28th franchise.

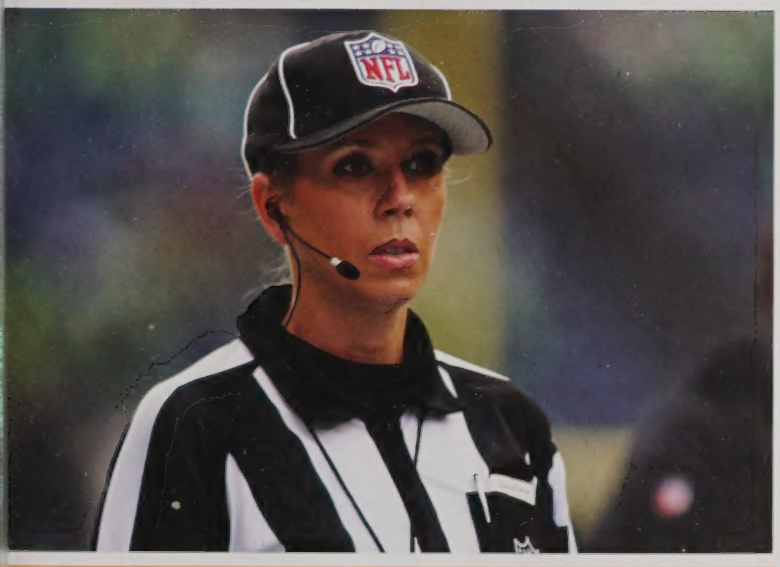
Ballet on the Big Screen

Ballerina Misty Copeland makes strides in the ballet world. At the esteemed American Ballet Theatre, she and Calvin Royal III became the first black couple to dance lead roles. They performed in the Harlequinade as Pierrette and Pierrot. She also danced as the Ballerina Princess in "The Nutcracker and the Four Realms," a cinematic adaptation of the famed Tchaikovsky ballet.

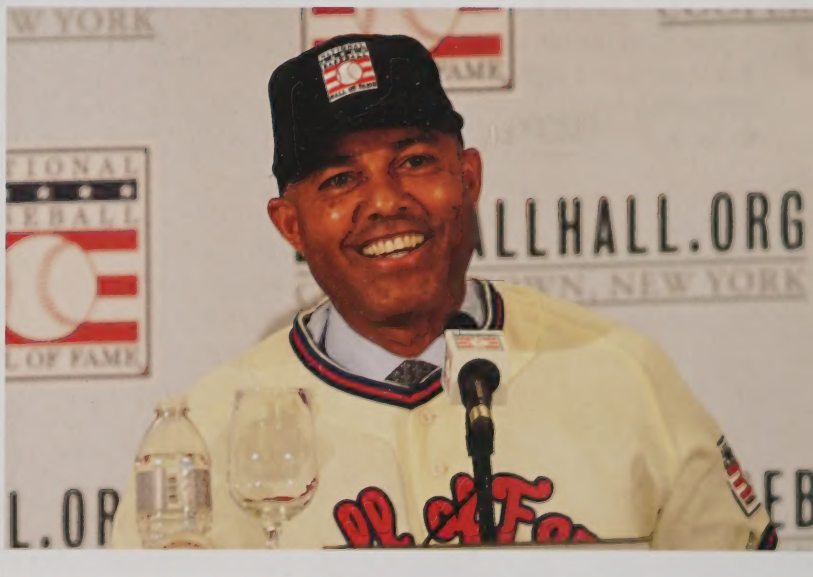
Raising the Bar

Simone Biles doesn't slow down after dominating the 2016 Olympics, becoming the most decorated female gymnast of all time. The 21-year-old Texan continued to dominate the U.S. gymnastics scene in 2018. She shone at the World Championships in Qatar, medaling in all six events despite being hospitalized with a kidney stone the night before qualifying.



First Lady of Football

Breaking another glass ceiling in a sports arena, Sarah Thomas becomes the first female to be an on-field official during the postseason. She was one of the referees during the playoff game between the Los Angeles Chargers and the New England Patriots. Thomas already made history by becoming the first female referee to officiate a college bowl game, as well as the first full-time female referee in the NFL.



Recognizing a Legend

While all MLB players dream of joining the Hall of Fame, former New York Yankees closer Mariano Rivera tops that by becoming the first player to be unanimously voted in. Rivera, who did not even make it into the majors until he was 25, was a 13-time All-Star, a World Series MVP and anchor to five winning World Series Yankees teams. Rivera holds the record for all-time saves and was known for the cutter pitch that shattered many a bat.

Powerful Science, Great Responsibility

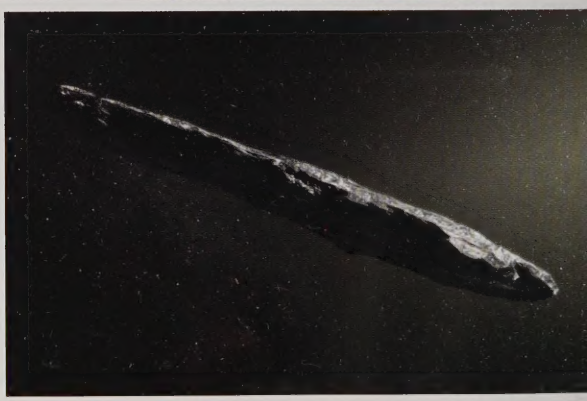
Excitement spreads through the scientific and medical community about the possibilities made available through the genetic engineering tool CRISPR (Clustered Regularly Interspaced Short Palindromic Repeats). However, ethical concerns were raised when Chinese scientist He Jiankui announced his use of CRISPR to alter the DNA of two twin girls, making them resistant to HIV. His actions were widely condemned by the worldwide scientific community for not following scientific protocol.

Breaking Radio Silence

Scientists at the Canadian Hydrogen Intensity Mapping Experiment (CHIME) in British Columbia discover repeated radio blasts coming from space – 13 in three weeks and 6 in the same location. These millisecond-long bursts required the amount of energy the sun produces a year. Speculation abounded as to the source, and theories included everything from alien transmissions to an exploding star.

Red Death

Toxic red tide, the nickname used to describe massive blooms of Karenia brevis, has a conservation team rushing to the aid of this sick sea turtle. The algae was naturally occurring, but runoff from cattle farms and residential development encouraged growth to dangerous amounts. The resulting red tide killed millions of fish in the Gulf of Mexico, harmed wildlife along a 100-mile stretch of Florida's coast and killed hundreds of sea turtles, as the unpleasant smell and harmful effects to humans drove away beachgoers and harmed local tourism.



First Contact?

What appears to be an asteroid quickly travels through the solar system in 2018. Named 'Oumuamua – Hawaiian for "a messenger that reaches out from the distant past" – its unusual shape and speed caused some scientists to speculate that the object may have been created by an alien civilization. The theory was not widely accepted by researchers.

Mosquitoes on a Diet

The key to reducing mosquito-borne diseases may be a diet, at least for mosquitoes. Female Aedes aegypti mosquitoes don't eat for days after a large feeding, so scientists at Rockefeller University tried to simulate that with a human diet drug and succeeded! A solution that tasted like blood mixed with an appetite suppressant drug left the mosquitoes disinterested in human feeding, giving hope it could be used in outdoor traps to help reduce the spread of the Zika virus, yellow fever and dengue.

Losing our History

Flames engulf Brazil's National Museum in September, destroying most of the 20 million artifacts. People around the world mourned the devastating loss of heritage which included paleontology fossils, indigenous South American cultural artifacts, anthropological finds, Brazil's largest meteorite and Egyptian mummies, to name a few. It was the largest museum in South America, Brazil's oldest historical institution and former home of the Portuguese royal family.

Polar Extremes

A milk cow tries to keep warm in -28 degree weather in New Prague, Minnesota, before being milked at Metogga Lake Dairy. A warm front moved warm air into the arctic regions in late January and pushed the polar vortex cold air farther south, leading to record-breaking temperatures in parts of the north and Midwest. Parts of Iowa and Minnesota saw wind chills reach -50 and -60 degrees, and Chicago had to light railroad tracks on fire with kerosene-soaked ropes to keep them operational.

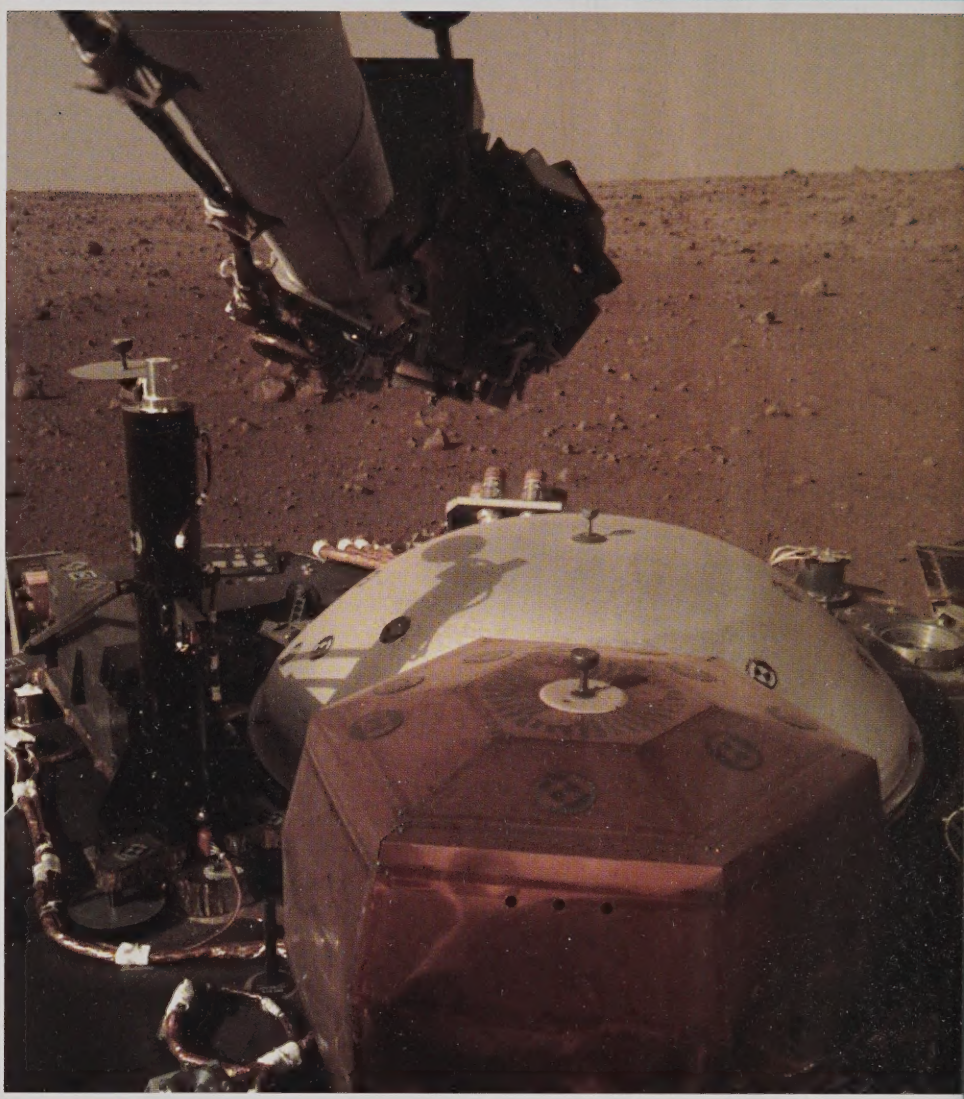
Seeing Red

November marks a major space exploration accomplishment as NASA's InSight spacecraft lands on Mars. The journey was especially tricky because InSight was too far away to pilot the landing, so the craft landed itself, slowing from 12,300 mph in 6.5 minutes. InSight embarked on a two-year geologic core study, which scientists hope will help them better understand why two rocky planets like Mars and Earth are so geologically different.



A Bite of the Profit

Strong sales and a loyal following of users helps Apple reach a financial milestone in August: it becomes the first U.S. public company worth $1 trillion. However, disappointing sales of the new iPhone XR and iPhone XS, as well as concerns about smartphone addiction and planned obsolescence, were factors in the company's subsequent drop below the $1 trillion mark.
